FORTY-THREE YEARS OLD — NILES, ALAMEDA COUNTY, CALIFORNIA, THURSDAY MORNING, APRIL 9, 1931 — NUMBER 15

CHAMBER OF COMMERCE WILDFLOWER SHOW WILL COMMENCE ON SATURDAY

Many New Features Will Be Inaugurated for Annual Event.

Sponsored by the Niles Chamber of Commerce in the interests of wildflower conservation, the third annual Wildflower Display, to be held in the show rooms of the Rose garage, is to commence next Saturday, April 14, and the committee in charge of the display extends a cordial invitation to everybody interested to attend.

Several new features are being inaugurated this year, and with the many varieties of wildflowers to be exhibited, the display promises to far exceed the popularity attained last year.

A rather unique exhibit will be a display of miniature wild flowers, some of which are said to be so small that they can be viewed only with the aid of a magnifying glass.

The exceptional educational value of the display has been recognized by the Chamber of Commerce, who have issued invitations to botany classes in all schools and colleges in and around the Bay district. Professor James C. Shirley, professor of Biology at Phillips University, Oklahoma, has promised to deliver an address on "How to Treat the Wildflower" at 2:30 o'clock on Sunday, April 12. E. M. Mrak and aides from the research department of the University of California, will be present to assist in classifying the various varieties of wildflowers displayed.

The committee in charge of the display ask that the three following suggestions be adhered to by all lovers of nature, and especially those interested in the conservation of California's wildflowers:

DO NOT decorate your automobile with wildflowers; by so doing you destroy what others might enjoy.

DO NOT break branches from trees or shrubs, as to do so may mean the destruction of such tree or shrub.

DO NOT pick more than you can readily care for. Too often quantities of wildflowers are picked to be later discarded along the roadside. Wildflowers belong to all, therefore do not thoughtlessly destroy.

FUNERAL SERVICES HELD FOR MISSION SAN JOSE RESIDENT

Joseph Frank Cunha, Early Settler, Passes Away On Monday.

Funeral services were held yesterday morning for "Joe Frank" Cunha, of Mission San Jose, who passed away Monday morning in a San Jose hospital from pneumonia and after-effects of exposure. Services were held at the Mission church, and were in charge of the Botelho Funeral parlors.

Two weeks ago, deceased, believed to have been between 80 and 90 years of age, and who was almost totally blind and physically weak, wandered away from his home back of Mission Peak, and was not found for twenty-four hours, after an exhaustive search by a large party of neighbors.

Deceased, well-known as Joe Frank, leaves a widow, Mrs. Mary Cunha, and several nieces and nephews. He was a native of the Azores, and had resided in California for more than sixty years, being one of the early pioneers of this state.

PEA THIEVES ARE ARRESTED WHILE ATTEMPTING SALE

Second Haul Made While Owner Investigates First Loss.

Arrested while in the act of trying to dispose of the stolen goods, Manuel Raposa and Frank Martin, transients, were arrested in San Jose Tuesday afternoon, charged with the theft of thirty-two sacks of peas, valued at $94.00, stolen from Manuel F. Vargas, of Warm Springs.

Vargas, following his discovery Monday afternoon that sixteen sacks of peas had been stolen, received word Tuesday morning that a blue colored truck had been seen leaving his yard the previous evening, and immediately comenced enquiring at different warehouses in San Jose as to whether or not persons owning such a truck had transacted any sales. While investigating at his second call, the truck in question drove up with still another sixteen sacks stolen while Vargas was away the same morning.

Warrants, charging Raposa and Martin with similar thefts in San Jose and adjacent territory, were being held by the San Jose police, and it has not been decided whether the case will be tried in San Jose or Centerville, before Judge Allen Norris.

MISSION SAN JOSE MAN CHARGED WITH RECKLESS DRIVING

Manuel Tavasse, of Mission San Jose, was found guilty of reckless driving before Judge J. A. Silva of Niles Tuesday afternoon, and fined $25. Francis E. Strannard, of San Francisco, was also fined $10 for speeding.

Members of Niles lodge, Neighors of Woodcraft, held an enjoyable whist drive and social last evening. Refreshments were served, and many good prizes awarded for high scores.

MANY ATTEND FIRE PREVENTION MEET HELD LAST NIGHT

Representatives Present From State Forestry Departments.

Sponsored by the Alameda County Firemen's association, a meeting was held at the Niles grammar school last evening, when J. C. Briggs, of the State Forestry department, and Woodbridge Metcalf and James Fairbank, of the forestry department of the University of California, addressed the large audience present on "Fire—Its Causes and Prevention."

In connection with the meeting at the school, demonstrations were also held in various localities throughout the day, the following schedule taking place:

10 a. m. Demonstration at Castro Valley.

2 p. m. Demonstration and talk to the students of Castro Valley school.

8 p. m. Talk at Niles grammar school.

Tomorrow, the speakers will give demonstrations at Mount Eden and Livermore, at 10 a.m., 2 p. m., respectively. Two fire trucks, fully equipped for fighting forest fires, are being used in the demonstrations.

MONTHLY MEETING OF COUNTRY CLUB IS WELL ATTENDED

Members Are Entertained With Music by Palms School Girls

The regular monthly meeting of the Country Club of Washington Township was held Tuesday, April 7. An unusual feature of the afternoon was a group of girls from the Saint Mary of the Palms school, of Mission San Jose, who delighted the ladies with a group of songs.

Miss Gertrude Keller, of Niles, gave an interesting talk on her trip to Europe, illustrated by pictures taken by herself while traveling.

Reports from delegates from the district convention at Tracy were given by Mrs. Walter Robie and Mrs. Frank Brown. At this convention was the culmination of an intensively exciting election of officers to the district.

APPEAL MADE FOR INFORMATION OF FORMER RESIDENT

For the past two months enquiries have been made in Niles and vicinity as to the whereabouts of Adolph Von Winkler, who, some twelve or thirteen years ago, resided in Niles. To date, no response has been made, and as the matter concerns money due Von Winkler, it has been requested that this appeal be published.

The name is rather unusual, and if anyone now living in Niles or vicinity remembers the name or anything about this man, the information would be greatly appreciated by those who seek to get in touch with him.

Information may be given at the postoffice or at the Register office.

PEACE DISTURBER MEETS WITH DIRE RESULT SATURDAY

Pugilistic Hayward Youth Meets Match In Husky Engineer

The aftermath of some exceedingly heavy liquor tossing earlier in the evening found Ed Principe, of Hayward, nursing a sore head that had been gently caressed by a love-tap from Constable Roderick's billy, and behind the bars of Niles jail, facing a charge of disturbing the blissful Easter tranquility of Niles.

It would appear that Principe, plus a small army of companions from Hayward, decided, after spending the evening alternately dancing and partaking of some powerful bathroom gin, that it was an opportune time to clean-up on the peace-loving inhabitants of Niles. Unfortunately, Principe selected a husky Southern Pacific engineer as his first opponent, with dire results. A right to the jaw, and Principe awoke just in time to hear the jail door slam! Evidently Principe considered this a dire insult, for he began to remonstrate with Constable Roderick. Roderick, not being in a remonstrative or playful mood, was finally forced to add to the insults (and rights to the jaw) already bestowed upon Principe, and administered the before-mentioned love-tap with the business end of his billy.

Principe appeared before Judge J. A. Silva of Niles Tuesday afternoon, and was fined $15 for disturbing the peace.

GLOBE TROTTERS FROM CENTERVILLE RECOUNT INTERESTING ITINERARY

Relate Fascinating Facts About Panamanian and West Indies Ports.

From New York come further fascinating news of the wanderings around the globe of Mrs. F. O. Bunting and Mrs. E. Chandler, who left Centerville in January with an interesting itinerary that called for a cruise through the Panama Canal, visits to the West Indies, with stops at major points of interest in the New England states.

In an unusually complete narration, Mrs. Bunting tells of their varied experiences, as follows:

"I am sure I wrote up to the island of Curacao. The only excuse for coming here was to get oil. The Dutch Shell store it and save quite a sum by getting it. There is a quaint little village—Willomested, where we looked through the shops, then took a taxi for the sights. It is a rocky little island, and lacks water. The latter is packed in huge barrels and sold by the quart or can to the inhabitants. Consequently, there were no flowers or shrubs, only cacti and desert bushes. We were glad to pass on to Venezuela.

The port was La Guayra. As soon as possible we were taken to a little train in waiting. We found we had a remarkable trip over the mountains, and the little train proved to be electric. We went to Caracas, the capital, only seven miles away, but by the railroad twenty-three. On one side of the mountains it was beautifully wooded with very large trees aflame with beautiful red blossoms, also small trees or large shrubs—bright with pure canary flowers, which made themselves very prominent among the green

PLEA IS MADE FOR CLEAN-UP OF CITY THOROUGHFARES

Co-Operation Is Strongly Urged By Chamber Of Commerce

In a report made Tuesday noon to members of the Niles Chamber of Commerce on the progress of the Garden Contest now under way, W. Kirk, chairman of that committee, stated that a general clean-up of First stret had been commenced, and that all the unsightly weeds growing around the base of trees along the main street were being removed.

He also made the suggestion that in view of the large number of out-of-town people who would be attending the coming Wildflower display, which commences Saturday, April 11, it would be a good idea to clean up the rest of the streets, thus further promulgating the ideals of the garden contest at the same time. The chamber of commerce went on record as strongly endorsing the idea, and urged that residents of Niles cooperate by cleaning their front yards of all unsightly weeds and rubbish that may have accrued.

CHAMBER SPONSOR WHIST PARTY FOR CHARITY TONIGHT

Anticipate Attendance Of Close to 300; Many Prizes Offered

Everything is in readiness for the charity whist drive to be held this evening in the Oddfellows' Hall at eight o'clock, under the sponsorship of the Niles Chamber of Commerce, and according to latest reports received from Harvey Braun, chairman of the committee in charge, it is anticipated that close to 300 card players will be in attendance.

Members of the chamber of commerce have been exceedingly busy during the past few weeks in order to make the affair one of the most successful ever put on by the local civic organization, and the co-operation of everyone is urged to swell the amount to be turned over to the charity fund.

Leading merchants in the township have donated prizes, some of which are now on display in the windows of Jones and Ellsworth real estate office on First street. Wives of members of the Chamber of Commerce have pledged their support to provide refreshments for the occasion, and from present indications, the affair this evening promises to be a great social success.

The following merchants in Niles have kindly offered to donate prizes, which are now on display in the windows of Jones and Ellsworth:

International Wood Products Co.
Kraftile Co.
Schuckl & Co.
California Nursery Co.
Pacific Gas & Electric Co.
Quality Meat Market.
Hellwig and Lagrave.

CIVIC ORGANIZATION HEARS INTERESTING TALK BY CENTERVILLE JUDGE

NILES REBEKAHS HOLD ENJOYABLE MEETING FRIDAY

Members of the Niles lodge of Rebekahs met last Friday evening, when plans were discussed relative to the coming joint district meeting of Odd Fellows and Rebekahs. Members of ten different Odd Fellows and Rebekah lodges will be in attendance at this meeting, and something very unique is promised in the way of entertainment.

An enjoyable social evening was enjoyed Friday, and it was announced that Mrs. Fred Mitte, district deputy, will pay an official visit to the lodge at the next meeting.

P.-T. A. To Meet

The regular meeting of the Niles Parent-Teacher Association board was held on Monday, April 6. On Tuesday, April 14, the regular meeting of the association will be held, at which time the nominating committee will present the new officers for the year. There is much interesting speculation as to who will lead the organization for the next fiscal year.

Judge Norris Explains The Inner Workings of State Courts

Judge Allen Norris, of Centerville, proved a very entertaining speaker when he addressed members of the Niles Chamber of Commerce at their regular weekly noon, the theme of his talk re-luncheon meeting held Tuesday volving around the jurisdiction of State and Federal courts. He explained the inner workings of the five different state courts, and the procedure and system by which each were run. The five courts, each respectively having more authority than the other, are as follows: Small claims court, justices court, superior court, district court of appeals and the supreme court. An interesting fact brought out by Judge Norris was that the small claims court was a comparitively new court in California.

Reports were made by committee chairmen on the progress made for the Wildflower display, which commences on Saturday, April 11; the garden contest, and the charity whist drive scheduled to be held this evening in the Odd Fellows' hall.

EDITORIAL COMMENT

By NORMAN H. PARKS, Publisher Register

INTIMIDATION!

THE WRITER believes that a great mistake was made by the city authorities of Hayward Monday afternoon in an attempt to throttle free speech and orderly assembly. Police and fire department succeeded in dispersing the crowd, but all the water that drenched the men and women participating in the meeting did not dampen their ardor, nor drown the ideas that have germinated within their minds, and taken root in their souls.

There lies the great error of force in its attempt to crush ideas not in complete harmony with those enunciated by the powers that be. It is an old story—old as history. And it fails utterly, completely.

This is a democracy. We understand it to be such. The very foundation of liberty and representative government is the right to express an honest opinion—not just the position, remember, that you and we believe in, but also the opinion of the other fellow who has ideas of his own, and should have a perfect right to express them according to the old interpretation of our constitution. When we deny a citizen this right we flout that sacred cause for which our forefathers bled and died that those who came after them might enjoy the blessings of the most liberal government yet conceived by man.

Some people seem to think that the right of free speech is to be accorded only to those who believe as they do. The true test of democracy is to accord free expression to those who diametrically disagree with us.

We wonder if the substantial people of America ever stop to consider the thought that if the unemployed and friendless are denied the right to speak in public places, voicing protest and airing grievances against government and society, that a precedent will be established which, with stealth and insidiousness, will gradually encompass their freedom of speech, and the freedom of their press, also. If we are to maintain our untrammeled political independence, we must fight for the right of ALL to enjoy these same privileges.

It is not enough to holler, "Communist!"

How long has this doctrine been incorporated into our life that new ideas in government may not be discussed, and the ideas of a new political tenet published in the press? Who promulgated this

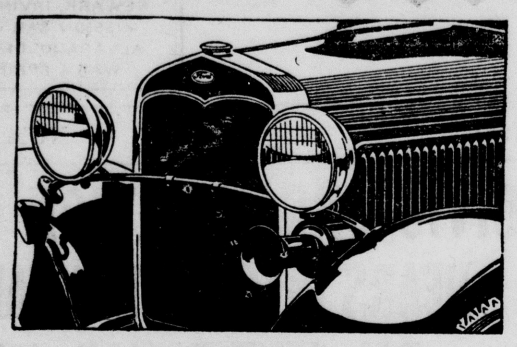
ANOTHER EXAMPLE OF FORD VALUE



Bright, enduring RUSTLESS STEEL is used for many exposed bright metal parts of the Ford

WHEN YOU BUY a Ford you buy enduring beauty. The body finish is made to last for the life of the car and practically all exposed bright metal parts except the bumpers are made of enduring Rustless Steel.

This Rustless Steel has great tensile strength. It is the same bright metal all the way through. A salt test equivalent to forty years' service under the severest weather conditions failed to have any effect on its brilliance. It never requires polishing. All you do is wipe it with a damp cloth, as you do your windshield.

This is just one of many features that show the substantial worth of the Ford. In speed, comfort, safety, economy and long life — in the richness of its finish and upholstery — it brings you everything you [illegible] a motor car at an unusually low price.

PREPARATIONS ARE BEING MADE FOR COMING FESTIVAL

Miss Madeline Dutra To Rule as Queen at Alvarado Fete

Work is being started in and around the Parish Hall in preparation for the coming Holy Ghost Festival. The committee of men, headed by the president, Manuel Goularte, have started to build platforms and improve the grounds.

Miss Madeline Dutra, of the Alvarado Creek Road, will rule as queen, and Miss Antoinette Rose and Miss Adeline Silva will attend as side-maids.

Dancing and fireworks will be among the main attractions, and the committee has also scheduled some excellent drill teams and bands.

The festival will be held in the early part of May.

Graham-Paige Choice of Six Companies

To the new Graham Special Eight Twenty Sedan goes the honor of being the first passenger car purchased by the Six Companies, Inc., which recently were awarded Federal Government contract to build the $49,000,000 Hoover Dam across the Colorado River.

THIS will be the world's largest private construction job and at this time tentative steps are being taken by the executives to start the initial work on the huge project.

H. J. Lawler, chairman of the construction committee, drove the first official Six Companies' car from the showrooms of the Graham-Paige Company of Northern California satisfied that the car of his choice would by its performance win the approval of his associates. Lawler pointed out that the car would be put to strenuous use in Las Vegas, Nevada, and San Francisco, as well as on the highways between the two points, and that for this reason it was up to him to purchase a car of outstanding mechanical advantages.

Before recommending that the Six Companies purchase a Graham Mr. Lawler did more than just look under the hood and drive the car on a short trial demonstration. Every single factor of engine, body and chassis construction received his consideration principally from an engineering standpoint. He was especially pleased with the feature of safety plate non-shatterable glass in every window.

Not the least of the many factors considered was the manner of engine cooling. This being important in view of the extremely hot climate in the desert country surrounding Las Vegas. As the cylinders in all Graham engines are water jacketed down the complete length of the bore to the crankcase. this point won Mr. Lawler's approval in the pre-purchase examination. Cooling in itself is important but uniform cooling throughout the length of the cylinder is of still greater importance because it prevents distortion of the bore and rapid cylinder wear.

Commenting further to D. N. Larson, general sales manager for Graham, Lawler said:

"The most important single reason for my recommending and purchasing the Graham sedan for the executives of the Six Companies lies in my previous satisfactory experience with the Graham four speed transmission. Regardless of price the Graham special six which I have been driving for business and pleasure is the finest automobile I ever used from the operating standpoint. The new and improved synchro-silent four speed transmission now available certainly was an inducement. This advantage, coupled with the new cam and roller steering, makes our new Graham even easier and safer to operate."

WARN MOTORISTS AGAINST IMPROPER ARM SIGNALLING

"Arm signals, if correctly given, are a good insurance against accidents. Use them."

This statement is made by Capt. L. A. Eike, of the California State Highway Patrol, who has pledged his assistance to the Safety Conference of the California State Chamber of Commerce in a campaign during April for the proper observance of this section of the Motor Vehicle Act.

"We are watching every motorist on our roads and laying particular stress upon the proper use of arm signals. Statistics show that approximately twenty per cent of automobile accidents are caused by improper use of arm signals, because seventy-five percent of our citizens either do not know the law, or are careless in its observance.

"The driver in the car following is also guilty. He is not always alert for signals from the car ahead. The result is anything from a smashed fender to an accident in which one or more lives are lost.

"Nearly everyone knows the law in respect to arm signals, but too often, however, they fail to give those signals, or else fail to give them continuously for a period of fifty feet before making the turn."

Quality Bodies for Quality Cars

NASH employs the most advanced principle of steel, wood and composite construction—the same kind of construction used in bodies for the highest priced cars. Interiors are tailored in quality mohairs, whipcords, broadcloths or genuine leather. Seat springs are exceptionally deep and restful, while arm rests are so built as to afford unusual comfort. Interior and exterior hardware is executed in chaste design, complementing the body design as a whole. Insulation against heat in summer and cold in winter is of course provided. Come in—drive a Nash; but don't permit its remarkable performance to overshadow the equally notable excellence of its body.

USE OF SEWER SYSTEM IS TO BE RESTRICTED

Pleasanton Plans Measure To Correct Situation at Disposal Farm.

That an ordinance prohibiting the use of the Pleasanton sewer system by manufacturing plants will be presented at the next meeting of the town council of that city was the announcement made by Peter C. Madsen, town trustee and chairman of the Public Utilities committee of the board.

Madsen's announcement followed his return from a trip to Santa Barbara where, with Mayor A. B. Pickard, he attended a convention of sewer experts.

While in the southern part of the state the two officials visited a number of sewage disposal plants, and upon their return to Pleasanton they began steps to remedy the unsatisfactory conditions at the Pleasanton sewer farm.

POULTRY RAISERS HEAR INTERESTING TALK AT PLEASANTON

Conditions In Business To Be Better In Fall, Says Speaker

To better the conditions of the poultry producers in Pleasanton district through a discussion of the problems was the object of the meeting of poultry raisers held at the home of Mr. and Mrs. B. F. Newton of that city on Tuesday evening.

Murray Davidson, of Hayward, assistant farm advisor, was the speaker of the evening. He gave some very interesting talks on the problems facing the poultry raisers now. He declared that there is every indication that the business would be much improved by next fall.

The meeting was well attended with twenty-five present, representing poultry men from all the near by towns. The ladies of the Farm Home Department served lunch after the meeting.

REHEARSALS IN PLEASANTON FOR CHURCH CANTATA

Many Voices Will Be Heard In Coming Religious Musicale

Rehearsals for the cantata, "Esther, the Beautiful Queen," are going forward rapidly and satisfactorily, it was announced this week. The musicale is sponsored by the Ladies' Aid Society of the Presbyterian church of Pleasanton, and will be given the first part of May, the exact date not having been set.

Harry Tripp, instructor of music in the Pleasanton Township schools, has been selected to direct the cantata. Rehearsals are being held each Monday and Thursday evenings at the high school.

It was stated that in addition to fourteen soloists there will be a mixed chorus of forty voices, and that it will be one of the outstanding musical events in the history of the Presbyterian church.

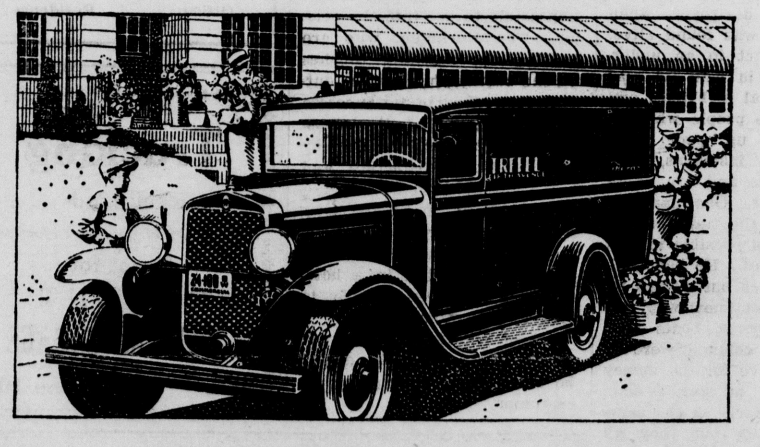
Choose Chevrolet six-cylinder trucks for low first-cost and unsurpassed economy



The economy of using Chevrolet six-cylinder trucks is an actual *dollars-and cents* economy that shows up, month after month, on the balance sheet. It starts with a purchase price that is one of the lowest in the market for a complete unit. It continues throughout Chevrolet's long life with an operating cost that is unsurpassed!

Consider, for example, the cost-records of leading national organizations who use large fleets of Chevrolets. They prove (1) That no other trucks of equal capacity give any better gasoline, oil or tire mileage than Chevrolet. (2) That the cost of keeping a Chevrolet in satisfactory running order is unusually low. (3) That Chevrolet trucks are exceptionally reliable and long-lived.

Today, Chevrolet's *proved* economy is available to buyers in every truck-using field. For Chevrolet offers a new line of quality bodies that includes a type for every hauling requirement.

Mr. and Mrs. E. S. Rohlfsen, from Peoria, Illinois, have spent a fortnight with their son, Lew Rohlfsen, of Decoto, and left last Sunday for their home in the east, having spent the winter in Los Angeles. Tuesday evening, Mr. and Mrs. Rohlfsen entertained at a dinner, in honor of the fifty-fourth anniversary of Mr. Rohlfsen's parents.

"Threetime Loser" Law Scored

SAN FRANCISCO—California's habitual criminal act was denounced today from the bench by Superior Judge I. L. Harris in sentencing Howard Elliot, 52, a "threetime loser" to Folsom prison for life.

Elliott was found guilty of burglary by a jury in connection with the robbery of a downtown hotel room on December 10. He obtained $15 in the robbery from Rodger Hutchins, the tenant of the room.

One of the offenses that made Elliott liable to the life sentence was issuing a worthless $6 check for a laundry bill.

Judge Harris said that he remained awake most of last night endeavoring to think up a way to avoid pronouncing the life sentence today, but under the law the life term was mandatory.

The present move, now before the legislature, to modify the law so that the life sentence will be mandatory only where offenses are crimes of violence, was pronounced "laudable" by Judge Harris.

Defense Attorney Joseph R. McNama announced after sentence was pronounced that he will go to Governor James Rolph, Jr., with a plea for executive clemency.

Bladder Weakness Kills Energy Night & Day

Getting Up Nights, Lowered Energy, Backache, Leg-Pains; Often Due to Functional Bladder Irritation

Quick Test Guaranteed

If you suffer from Getting Up Nights, Backache, Frequent Day Calls, Leg-Pains, Nervousness, Burning or Smarting, due to functional bladder irritation, in acid conditions, and feel run-down, discouraged and depressed, you should try the quick-acting Cystex Test.

Quick Acting Double Test

If you suffer from these conditions, you likely will be delightfully surprised at the quick, soothing, — of Cystex.

Much of the marked success of Cystex is due to its being two treatments in one. Because of this double action most sufferers find that there is no long waiting for results but that their conditions are alleviated almost immediately. One part of the treatment starts circulating through the system within a few minutes, quickly alleviating urinary irritation and associated painful conditions. The other part of the treatment soon acts as a mild and soothing diuretic to the kidneys.

The ten pure ingredients composing the Cystex double treatment are listed in each package so that you may know exactly what you are taking and can be told by your druggist or doctor that this is a highly meritorious preparation, which does not contain any dopes, narcotics or habit-forming drugs.

Internationally Successful

Cystex has had such marked success that it is now demanded in many different parts of the world, and is registered with the governments of twenty different countries, such as England, France, Canada, Australia, Brazil, etc. This rapidly growing demand is largely due to quick action, unusual merit, and the recommendation of satisfied users who found that Cystex quickly alleviated their conditions thus eliminating many hours' suffering and worry.

Guaranteed Trial Offer

Don't wait. Don't delay. Get Cystex (pronounced Siss-tex) from any druggist for only 60c, under the Iron-Clad, Money-Back Guarantee. Put it to the test. Use all of it. See for yourself how fast it works. If it does not quickly improve restful sleep and alleviate other discouraging conditions, due to functional bladder irritation, thus increasing your energy and enjoyment of life, merely return the empty package and your money will be refunded.

Trail Of Bad Checks Lands Man In Jail

Frank Branthwaite Arrested In Pleasanton by Constable Vervais

Leaving a trail of worthless checks in his wake led to the arrest of Frank Branthwaite, 45, Hetch Hetchy worker, in Pleasanton on Tuesday afternoon by Constable Albert E. Vervais of that vicinity.

Branthwaite was arrested on a warrant charging the passing of a worthless check on an Oakland hotel last Saturday night. After his arrest, Constable Vervais said that another check cashed in Alameda for some seventy dollars had been found, and that Branthwaite admitted having cashed others.

The checks were drawn on the First National Bank of Pleasanton. Branthwaite was taken to the Livermore jail to await arraignment.

PLEASANTON LADY ENTERTAINS WITH SHOWER, FRIDAY

Mrs. Eldon R. Atkinson Is Honored Guest at Party

Mrs. Eldon R. Atkinson, of Pleasanton, was the honored guest at a shower given at the home of Mrs. C. Sessions on Pleasanton avenue on Friday night. The rooms and tables were beautifully decorated with spring flowers.

Late in the evening a dinner was served in honor of Mrs. Atkinson's mother, Mrs. M. L. Corbett, of Pleasant Grove, Utah.

Among the guests were the Mesdames Atkinson, Frank Peters, C. Bernal, C. Sessions, P. M. Koopman, Oliver Peddycoart, C. B. Terrill, Adele Sobiela, R. Munro and John Avilla, and Miss Daphne Peters, all of Pleasanton; Mrs. M. L. Corbett, of Pleasant Grove, Utah; R. Burgener, of Kilkare Woods; and Mrs. Tucher, of Oakland.

trees. The other side was barren and swept by the rains.

The market was most interesting to me—tube roses, Easter lilies and flowers were very pretty to see, and then the fruits, too numerous to mention. We were driven over the interesting city—could go through, among others, the home of Bolivar—Archbishop's Palace Cathedral—Fine Arts Academy—Library and Post Office. In 1812, an earthquake visited the city and at least 10,000 persons were killed. We were then driven up Calgary mountain, where we could look over the city. Lunch was served and we returned to our boat.

We arrived in Trinidad on Sunday and had a beautiful ride. Here we found plenty of water. Native children held out coffee beans, cocoa pads, papayas, mangoes, etc. We saw the immense saman trees with a wonderful spread, and coffee is planted under them to shelter the bush. We were taken back to Port-of-Spain, where we had a delicious luncheon. Oil is found on this island in abundance, and we had the good fortune to meet the superintendent of the British oil company.

On March 2 we were in the beautiful Barbados. Again we found streams and rivers—all kinds of tropical fruits—sugar cane is planted in the large fields and cut up by huge Dutch windmills that could be moved around to catch the breeze. Of course, there were up-to-date mills. The island is thickly populated. Again we wondered at the ability and dexterity with which baskets and bundles were carried on the heads. A shower came up, but the driver simply went under a tree, and when the sun came out we continued. We had our lunch at the Marine hotel, where we found a "self-help" association, with the most beautiful work in basketry. The coral, of which this island is composed, is used a great deal for building.

Martinique is under the French. It was very warm, and I viewed it from the vessel. It was quite dirty, with open sewerage in the streets. We were taken the same day to St. Pierre, which was most interesting. Mount Pelee in the distance smoked quietly, but the lava down the sides showed past performances. The ruins before us told of the powers. Many remember when this city of 45,000 was absolutely destroyed—when only one person was found alive, who was a convict in an underground cell. It is said he was taken to a hospital in France and is still alive. The people who are here have put up poor little houses; in some instances, have dug out the ruins and are living in the excavations. One man said he was away at the time, but returned as soon as possible to find his family all dead. He had gone away several times but always returned—he did not know why.

At all these ports, boats with natives in diving costume were on hand ready to dive for the money thrown — never missing a coin. Sometimes a dark lady came along, or a child, but they all bobbed up with the coin, ready for more.

St. Thomas, Virgin Islands and San Juan, Porto Rico, have become doubly interesting since our President has just made the trip. The view he took of these places appeared much the same to us. One paper suggests that St. Thomas be made into a summer resort as a money asset. With Jamaica and Barbados so near, we cannot see how that could be done. At St. Thomas the boats were loaded with cacti in blossom, and plenty of Bay Rum. The latter is said to be the finest in the world—and we wished we could have carried some. San Juan was much more thrifty—a beautiful capital and a fine hotel—plenty of water with many fine plantations of sugar, coffee, tobacco, oranges, pineapple and grapefruit.

Bermuda was our last stop. It was a threatening day. We rode around the island, saw the caves, the strange formations in the rock where it was cut out like great pieces of cheese. This was done by the slaves in olden times. We saw the government acquarium, and finally went back to the Hamilton hotel. By this time it was pouring, and we were glad to have a good hot lunch. We saw acres of Bermuda lilies, ready to bloom for Easter. We bought bunches of sweet peas and other beautiful flowers to enjoy on our boat.

From here we had quite a rough day—rain thunder and lightning, and even a water-spout was seen. We were delayed, so that we did not get to our hotel, "The Lexington," until 1:10 in the morning. We have had a lovely visit in Maine and Massachusetts, and leave tomorrow on the last part of our journey."

ADVERTISING IS PROFITABLE—BUT HAVE THE GOODS

It certainly pays to advertise—

But before you advertise be sure you have the commodity you are tooting the horn about. At least so sayeth Police Chief Wm. T. Davis, of Pleasanton.

Chief Davis was bragging about the new city jail to Ben Nevis on Tuesday afternoon, when a homeless man who told the chief he had overheard the conversation, asked for lodging in the new bastile for the night.

"More than pleased," declared Chief Davis, " to accomodate you."

Well along about 7 o'clock the said homeless man looked the chief up and wanted to go to bed. The wayfarer was escorted to the jail, but upon arriving it was found that it was impossible to get into the prison. The workmen, who are putting the finishing touches on the bastille, had set the outside steel door in its concrete case and installed the steps. The door was held in place by forms for the concrete and could not be moved.

Chief Davis refused to comment upon the rumor that the homeless one talked him into paying for his bed in a hotel after having been unable to provide the promised bed.

All of which goes to prove that it pays to advertise and to be sure not to disappoint the customer.

LIONS ANNIVERSARY PARTY TO BE HELD AT CASTLEWOOD CLUB

Program Is Now Being Worked Out By Special Committee

Castlewood Country club has again been selected as the locale for the annual Charter Night program of the Pleasanton Lions club, it was announced this week by that organization. The celebration will be held on or about the twentieth of May, that date being the anniversary of the presentation of the charter to the Pleasanton den.

Plans for the elaborate program of addresses and entertainment are being made by the Charter Night committee. Last year the attendance was nearly two hundred, and while not such a group of Lions is expected owing to nearness of dates of the annual district convention, more than one hundred are expected.

Pleasanton Lions are in for four months of extreme activity, it was stated this week. The club has the current month in which to prepare for the Golden Gate council meeting to be held here on May 7. The following month will see the first anniversary night celebration. Then in June will be the annual district convention and election of officers for the new year. July follows with the club planning on again entering into the festivities of the Livermore Rodeo program on July 4.

Plans are being made to care for approximately 200 at the council meeting. The Pleasanton den will entertain with a barbecue in McKinley Park.

Interest in the Charter Night program is great because of the fact that the ladies will again be guests on that evening.

June will see the end of the first official year during which Jerome Arendt has been president. New officers will take their seats that month.

The club does not intend to play second fiddle to any in the Fourth of July celebration and for that reason is at work on that portion of its activities now.

Lions Club Hears Interesting Talk On Newspaper Work

Interesting features and the business problems of the newspapers of California were discussed in an address before the Pleasanton Lions club at its meeting in Ratti's restaurant on Tuesday evening by Maitland R. Henry, publisher of the Livermore Herald.

Lion Henry explained to the members of the club the workings of the California Newspaper Publishers' Association, which represents a state-wide group of 362 weekly and daily newspapers in the state. He told of how the organization is endeavoring to aid the member newspapers to give each community a better medium for the transmission of news and for better editorial pages.

"It is the desire of the organization in the matter of editorial pages," Henry declared, "that the publishers be wide awake and in close touch with all local situations and through the editorial page to lend the aid of the press to solving civic problems."

The speaker also told of the problems confronting the newspapers because of radio and television. He declared that so far the radio had increased the circulation of newspapers, citing the example the announcement of the death of Coach Knute Rockne in an airplane crash Tuesday, and how everyone eagerly awaited the arrival of their newspaper to get the details.

As a distributor of news nothing to date can compare with the newspapers, Henry stated. To get news over the radio one must be in a certain place at a certain time, while with the newspapers the place or the time does not cut any figure.

A brief report on the trip to southern California by two members of the town council was given to the club by Mayor A. B. Pickard, of Pleasanton. He told of several situations found on the trip that paralleled somewhat the Pleasanton condition and gave the high lights of the tour.

BOBBY DINGS LOSES SECOND TOE OF LEFT FOOT IN ACCIDENT

Youngster Falls Beneath Wheels of Wagon of Lumber

Amputation of the second toe on the left foot of Bobby Dings of Pleasanton, was found necessary Thursday as the result of an accident last Wednesday in which the wheel of a wagon loaded with lumber passed over the foot.

Bobby was attempting to climb upon one of the Hansen and Orloff Dairy wagons as it passed near the St. Augustine's church. The youngster lost his footing and fell, the left foot being under the wheel.

The boy was taken to a physician immediately and X-ray pictures showed all toe bones except those in the little toe to have been fractured. Every effort was made to save the second toe which was badly lacerated in addition to the bones being broken.

The youngster bore up well under the ordeal, physicians stated and he will recover without further trouble.

Construction under way on last unit of Redwood highway which extends from Crescent City to Elk Valley or Turner's corner, five miles northeasterly.

MOTORISTS REPORT NEW STANDARD GAS IMPROVES ALL CARS

Vehicles in All Price Ranges Are Said To Handle Better With New Fuel

Cars in every price range run more smoothly and handle more easily with the new "Standard" gasoline, according to reports from motorists throughout the Pacific west to the Standard Oil Company of California.

At no increase in cost, this new premium quality motor fuel is now being distributed to motorists everywhere by Standard Stations, Inc. and red, white and blue dealers.

First announced by large-space advertisements, the new type gasoline has become popular almost overnight in every corner of the west, it is reported, partly because of word-of-mouth advertising of motorists who are using it.

damnable dictum, and from whom did they get authority? Not from Washington, our revolutionary hero, who fought the British eight years to win the right of petition, and in the winning won freedom, and not just for Americans only, but for all who dreamed of liberty, he planted the seed deep in the soil of every land. Certainly the authorities who are suppressing free speech did not learn their part from the great Jefferson, that Democrat who wrote the constitution of the United Sates and penned the undying article on free speech and free press. Not from Lincoln, the martyred president, could our political censors have drawn their inspiration, for that great man, even under the stress of war, refused to punish Lee and Jefferson Davis who took up arms against the existing government. Coming down to recent history, Roosevelt and Wilson gave no cue to those who have delegated unto themselves the duty of preserving the government along the lines that they themselves believe best, regardless of what others may think; those who would use force, when they should use argument and reason.

No better way to gain recruits for Sovietism is possible than to abuse those who voice allegience to this theory of government. You cannot kill an idea by brutality. The best way to handle the so-called communists is to let them talk. Keep the police away from their meetings. What matter what they say? If their idea is wrong, it will get them nowhere. They thrive only on persecution. The Soviet Union of Russia was possible only because of centuries of intimidation and neglect.

Freedom of speech, regardless of to what extremes it may go, disarms the professional agitator, and leaves him no fuel for the flames of hate and class jealousies. Let him and his kind rant on until the lack of echo leads them to hold their peace.

PARENT-TEACHERS MEET VITAL ISSUE

A VITAL ISSUE of transcending importance to the future usefulness of the Niles Parent-Teachers' association will be met and solved, it is thought, at the meeting of that body in Niles Tuesday of next week. The problem to be discussed and finally passed upon definitely is whether the local unit of that organization will give up its affiliation with the state and national Parent-Teachers' Association and revert to only a society of mothers, confining themselves to the restricted activities of the town, pushing out of their horizon the larger things that eminate from the state and national body.

The matter has come to a crisis, it seems, because of the indifference of all but a very few to the activities of the federated councils of the Parent-Teachers' Association. Many members believe it wise to withdraw membership, not because of the very nominal dues paid to the state and national bodies, but upon the assumption, and a reasonable one it appears on the surface, that no interest is shown for the larger work sponsored from headquarters, and conveyed locally by delegates and members attending the sessions in Oakland and elsewhere.

It seems to the Township Register that a larger and more generous view of the matter should be considered. It must not be forgotten that from the state and national councils of the Federated Parent-Teachers' Association comes the inspiration for the worthwhile activities that have accomplished so much for Niles. The few deeply interested members who have dropped personal duties, and often at a real sacrifice of time and money, consistently attended the meetings of the major organization, bringing home locally new ideas to be carried out here for the benefit of better education, and the manifold other worthy activities, feel, we are sure, that this work should go on. It would be a mistake, they believe, to withdraw from the parent body. It would be a step backwards. And that is not good advertising for Niles, when it is, as now, at the very threshold of commercial and social activities hardly dreamed of a year ago.

The matter, of course, will be very carefully considered by the fine women of Niles. Their vision is not provincial, we are sure; they see and understand the bigger things in community, state and national life. If continued affiliation with the federated bodies will, according to their understanding, be of greater benefit, not only to Niles but to the state and county at large, then Niles women, than whom there are none more noble and sacrificing, will be found maintaining their present statutes. The splendid record of accomplishment will not be diminished, but 1931 will find local women in the very vanguard of educational and civic matters.
